The *Seoul Agenda: Goals for the Development of Arts Education* was unanimously endorsed by all UNESCO Member States in 2011. It is the only existent policy paper of global relevance on arts education. It provided the frame of reference for an international inquiry into arts education experts' perceptions of key issues in the field: access and participation, quality, and the benefits of arts education. Nearly 400 experts from 61 countries around the world participated in this research. The book presents findings, commentaries, and reflections contributed by 50 international scholars and expert practitioners.
